PROFILE

Highly skilled Mobile app Developer with more than 3 years of hands-on experience in the IT industry, specializing in the Flutter framework. Proficient in developing and delivering top-notch applications and supporting startup businesses in achieving high-performance websites using Flutter. A proactive learner with a passion for continuous improvement, ready to enhance cutting-edge projects with technical expertise and leadership.

WORK EXPERIENCE

Lead Flutter developer

BESTWAY INFO TECH PVT.LTD   Aug 2023 - Present

- Leading and mentoring a team of Flutter developers.
- Worked with third party libraries like Stripe, Paypal, Zoom, Google Map, etc.
- Optimization is crucial for delivering high-performance Flutter applications. Senior developers should have experience optimizing app performance, including reducing app size, minimizing CPU and memory usage, and improving rendering performance.
- Provide guidance and mentorship to junior developers within the team. This includes code reviews, knowledge sharing sessions, and helping team members troubleshoot complex issues.
- Involved in project management tasks such as task estimation, sprint planning, and coordinating with other teams or stakeholders.

Flutter Developer

MARLO Technologies   Jun 2022 - Aug 2023

- Collaborated with cross-functional teams to ensure seamless integration of frontend and back-end components, resulting in highly responsive application.
- Worked with several third party APIs and built website for the products using flutter.
- Managing workload and deadlines effectively to deliver projects on time. This involves prioritizing tasks, estimating time for completion, and communicating any potential delays proactively.
- Documenting code and processes to facilitate knowledge sharing and collaboration within the team. This includes writing clear and concise documentation for future reference.

Full Stack Developer Intern

Maxlore Innovations LLP   July 2019 - Jan 2020

- Gain hands-on experience in building user interfaces (UI) using HTML, CSS, and JavaScript.
- Work on server-side logic using programming language Python.
- Collaborate with experienced developers on real-world projects or features within existing applications.
- Contribute to all stages of the development lifecycle, from planning and design to implementation, testing, and deployment.
